

Handel Society of Dartmouth College: Concerts 1938 – 2026

About This Report

The database from which this report is extracted was developed and is maintained by David T. Robinson as a resource for preserving the history of Handel Society. Data was collected primarily from concert programs, but conductor recollections were used when no program was available.

Note that selections are not necessarily in concert order and that names of soloists are not included. Soloists are, however, recorded in the database. Also recorded in the database (but not listed here) are the formats and locations of the concert master recordings and any derivative recordings produced from them.
